

OUR PURPOSE

Since 1978, it has been the goal of Guilford Before & After School Care to provide quality and affordable care to elementary school children. In so doing, our program enables parents to work, continue their education, or pursue other interests.

The children in our care are provided with a safe and relaxed environment in which to enjoy a variety of activities. Much of the creative inspiration for these activities comes from the children themselves, whose ideas and preferences are always well-regarded by the staff, who continuously strive to keep the program activities flexible and appealing.

Although, as an organization, we function independently of the public school system, we maintain close, supportive ties with the professional staff of the schools in which we operate. This unique relationship affords us the opportunity to interact effectively between parents and school personnel whenever special-needs circumstances exist.

Guilford Before & After School Care is a program of the Guilford Center for Children, Inc. A Board of Directors oversees the Guilford Center for Children and has general charge of the policies, operations, funds, and property of the corporation and its program.
